# Testimonials

“James Burrell has supplied Amethyst Homes for over 5 years. They provide a fast and efficient service that is critical to the demands of the industry. Sales staff are friendly and helpful and have the experience and knowledge to offer competitive pricing and assistance with our orders. Burrell’s are currently heavily involved with our new development at Sleekburn View, East Sleekburn, providing general building materials, timbers and drainage as well as servicing our other sites across the North East.”

### **Amethyst Homes**

“James Burrell is a strong and consistent supplier. The combination of friendly, knowledgeable staff and quality products at competitive prices make James Burrell a pleasure to deal with.”

### **Miller Homes North East**

“Helpful, competitive and most importantly reliable, would be what comes to mind when I think of James Burrell. I can always trust that no matter what, Barry will provide an exemplary level of service.”

### **Bellway Homes Durham**

“Working for NB Clark in Morpeth we find Burrell’s ideally located to supply all of our sites from Alnwick across to Haydon Bridge and South of the Tyne and they assist with the provision of most of the varied products we require. Mostly to be installed within housing schemes but also for farming, commercial and industrial contracts we carry out.

The staff are ideal to work with being prompt with competitive quotes and knowledgeable with most materials and able to provide alternative specs when required. Courteous and friendly when we call and I hope they would say friends with our team not simply work colleagues who are there to provide a service.”

### **NB Clark Morpeth**

“We have used James Burrell Builders Merchants for many years to service our new housing developments in Yorkshire and Derbyshire. It is important for us to have a reliable delivery service for building materials and have found their commitment to delivering accurately and on time is excellent. Their product knowledge and competitive pricing has led to them becoming a key supplier in our procurement chain.”
